

Online patient registration

Welcome

We look forward to welcoming you to Cabrini, but first we need some important details to help us prepare for your upcoming admission.

To start your registration, please log into Cabrini's eAdmission Patient Portal by clicking the link or scanning the QR code with your phone. Complete your admission and health history forms **at least 5 days** before you come to hospital.

This is a safe and secure portal accessible on any device, anywhere and anytime. If you are not familiar with computers, or do not have an email address or mobile number, **a family member or friend can assist you.**

The online registration will take between 15 – 45 minutes depending on your medical history.

cabrini.eadmissions.com.au

To complete your eAdmission you will need

- Email address
- Mobile phone
- Personal details
- Next of kin details
- Current Medicare, Pension and/or pharmacy benefit card
- Private health OR DVA or WorkCover details
- List of all medications including strength, dose and reason for taking
- Medical/ surgical history
- Enduring guardian and/or advanced care directive info

New users

Please select **'Create User'** and enter your details to create an online profile.

Hint: take note of your username and password as you will need this information to login to the portal.

Returning users

Please **'Login'** using your email and password you created when you set up your user profile.

Select **'New Admission'** and complete all required sections.

Once you have successfully completed your online registration you will receive an email confirmation. The email will include valuable information to help you prepare for your hospital admission.

Need help?

Call us on (03) 9508 1679

If you can't reach us straight away, please leave a message.

Look for a link to **frequently asked questions** at the bottom of every page in the portal.

Managing admission for family and dependents

You can manage admissions for elderly relatives or dependents within your own user account.

Simply log into your account and select **'Add New Patient'** on your home page to set up a patient profile. You are now ready to start a 'New Admission' on their behalf.
