

## Rehabilitation

Our specialist clinicians deliver excellent rehabilitation care in the heart of Brighton, enabling you to reach your identified goals and improve your quality of life.

Our expert team of rehabilitation consultants includes: specialists, care coordinators, physiotherapists, occupational therapists, speech pathologists, social workers, nurses, neuropsychologists, psychologists and dietitians. We will work together with you to assess your condition and tailor a rehabilitation program to best suit your needs.

**Cabrini Brighton rehabilitation provides in-hospital programs across a wide range of clinical specialties including:**

- Chronic pain
- Degenerative diseases
- Post joint replacement surgery
- Major general surgery
- Post-operative deconditioning
- Transport or work accident

We also offer a comprehensive range of individual and group therapy rehabilitation and chronic disease programs through our Allied Health Centre at Cabrini Brighton. These out of hospital services are aimed at enhancing your health and wellbeing when and where you need it.
